1 What you see is what you test: a methodology for testing form-based visual programs

Rothermel, G.; Li, L.; DuPuis, C.; Burnett, M.;

Software Engineering, 1998. Proceedings of the 1998 (20th) International Conference on , 19-25 April 1998

Pages: 198 - 207

[Abstract] [PDF Full-Text (1172 KB)] **IEEE CNF**

2 A data mapping specification environment using a concrete business form-based metaphor

Yongqiang Li; Grundy, J.; Amor, R.; Hosking, J.;

Human Centric Computing Languages and Environments, 2002. Proceedings. IEEE 2002 Symposia on , 3-6 Sept. 2002

Pages: 158 - 166

[Abstract] [PDF Full-Text (425 KB)]

3 Testing strategies for form-based visual programs

Rothermel, G.; Li, L.; Burnett, M.;

PROCEEDINGS The Eighth International Symposium On Software Reliability Engineering, 2-5 Nov. 1997

Pages:96 - 107

[Abstract] [PDF Full-Text (1136 KB)]

4 A user interface for the visualization and manipulation of arrays Leopold, J.L.; Ambler, A.L.;

Visual Languages, 1996. Proceedings., IEEE Symposium on , 3-6 Sept. 1996 Pages: 54 - 55

[Abstract] [PDF Full-Text (188 KB)] **IEEE CNF**

What you see is what you test: a methodology for testing form-based visual programs Gregg Rothermel , Lixin Li , Christopher DuPuis , Margaret Burnett Proceedings of the 20th international conference on Software engineering April 1998	98%
A methodology for testing spreadsheets Gregg Rothermel , Margaret Burnett , Lixin Li , Christopher Dupuis , Andrei Sheretov ACM Transactions on Software Engineering and Methodology (TOSEM) January 2001 Volume 10 Issue 1 Spreadsheet languages, which include commercial spreadsheets and various research systems, have had a substantial impact on end-user computing. Research shows, however, that spreadsheets often contain faults; thus, we would like to provide at least some of the benefits of formal testing methodologies to the creators of spreadsheets. This article presents a testing methodology that adapts data flow adequacy criteria and coverage monitoring to the task of testing spreadsheets. To accommodate	85%
Technical papers: software testing: Automated test case generation for spreadsheets Marc Fisher, Mingming Cao, Gregg Rothermel, Curtis R. Cook, Margaret M. Burnett	84%

Proceedings of the 24th international conference on Software engineering May 2002 Spreadsheet languages, which include commercial spreadsheets and various research systems, have had a substantial impact on end-user computing. Research shows, however, that spreadsheets often contain faults. Thus, in previous work, we presented a methodology that assists spreadsheet users in testing their spreadsheet formulas. Our empirical studies have shown that this methodology can help end-users test spreadsheets more adequately and efficiently; however, the process of generating test cases ...

4 A generalised spreadsheet verification methodology

80%

Nick Randolph , John Morris , Gareth Lee

Australian Computer Science Communications, Proceedings of the twenty-fifth Australasian conference on Computer science - Volume 4 January 2002

Volume 24 Issue 1

. . **.** -

Although spreadsheets have been around for over thirty years, we are only just realising their importance. Most companies use spreadsheets in their decision-making processes, but rarely employ any form of testing. This paper shows how an "all-uses" test adequacy technique can be integrated into Microsoft's Excel. The modular technique adopted makes the implementation spreadsheet package independent. It also includes a user interface, to assist developers specify test cases and a technique for re ...

5 WYSIWYT testing in the spreadsheet paradigm: an empirical evaluation Karen J. Rothermel , Curtis R. Cook , Margaret M. Burnett , Justin Schonfeld , T. R. G. Green , Gregg Rothermel

77%

Proceedings of the 22nd international conference on Software engineering June 2000 Is it possible to achieve some of the benefits of formal testing within the informal programming conventions of the spreadsheet paradigm? We have been working on an approach that attempts to do so via the development of a testing methodology for this paradigm. Our "What You See Is What You Test" (WYSIWYT) methodology supplements the convention by which spreadsheets provide automatic immediate visual feedback about values by providing automatic immediate visual feedback about &ld ...
